SIGNATURE STONE PLUS:

If you're going for a more raw and natural feel, the Signature Stone Series is the product for you. This innovative design incorporates the natural look of stone, with the comfort and simplicity of a Weatherdek walking surface. All Weatherdek Plus materials are 'bare foot friendly', and the Signature Stone Series is no exception. The subtle contrasts of this design lend well to heavy traffic areas or extreme exposures, and blend flawlessly with natural building materials such as stone or timber.
